I. Introduction

A. Organization Description

1. Hospital/Facility Description

Baptist Health Lexington, a 383-bed tertiary care facility, is also a major medical research and education center. Established in 1954, Baptist Health Lexington is recognized for its excellence in maternity care, heart care and cancer care, and the hospital's Clinical Research Center conducts groundbreaking research in both fields. Baptist Health Lexington has delivered nearly 150,000 babies. The hospital operates six outlying outpatient centers, including locations in Georgetown, Nicholasville and Richmond.

Specialized, comprehensive patient services include: Heart services, Cancer care, Women's health, including mother and baby care, Neurosciences (stroke care) Emergency care CyberKnife treatment Genetic counseling Orthopedics, Home care, Weight-loss surgery Rehabilitation services Sleep disorders center and Occupational health

Excellence lauded

Baptist Health Lexington has been distinguished three times as a Top Performer by the Joint Commission and has been designated three times as a Magnet hospital for nursing excellence by the American Nurses Credentialing Center. A snapshot of other recent recognitions includes:

U.S. News & World Report – earned the #1 spot in Kentucky in 2014. The publication annually recognizes hospitals that excel in treating the most challenging patients. Sister hospital Baptist Health Louisville tied for the #2 spot

American College of Surgeons' Commission on Cancer – successful survey in 2014 for reaccreditation with commendation, the organization's highest recognition

American College of Cardiology – NCDR ACTION Registry-Get With the Guidelines Platinum Performance Achievement Award for 2014, one of only 256 hospitals nationwide to receive the honor

Joint Commission – successful survey in 2014 for reaccreditation of the institution's Stroke Center certification

I. Introduction

A. Organization Description (continued)

Joint Commission – successful survey in 2014 for reaccreditation of the institution’s Gold Seal of Approval for the orthopedic program, specifically hip and knee

Joint Commission – successful survey in 2014 for accreditation of the institution’s Advanced Certification for Palliative Care. The hospital was the first in Kentucky to receive this recognition.

Society of Cardiovascular Patient Care – the first hospital in the United States to be certified for the Society’s Atrial Fibrillation Accreditation with EPS (2014)

American Heart Association – Mission Lifeline® Gold Receiving Quality Achievement Award (2014)

Society of Thoracic Surgeons – “3 star rating,” which denotes the organization’s highest category of quality for cardiac surgery (2014)

National Accreditation Program for Breast Centers – successful survey in 2013 for reaccreditation.

Oncology Nursing Certification– 2014 Employer of the Year Recognition for supporting and encouraging certification of its oncology nurses.

Baptist Health Lexington has a strong commitment to its community, demonstrated through its health screenings/fairs and events such as A Midsummer Night’s Run and the Children’s Charity Classic.

Baptist Health has a network of healthcare providers for patients in the Lexington area – from **Baptist Health Medical Group** offices, to **Baptist Express Care** inside Walmart stores, **Baptist Urgent Care** at Brannon Crossing in Nicholasville, and **Baptist Health Occupational Medicine** (formerly known as BaptistWorx®).

2. Defined Community Served by Hospital

Baptist Health Lexington is located in Lexington, Kentucky within Fayette County. Lexington is approximately 75 miles east of the Louisville Metropolitan area. Lexington is accessible by interstate, highways and secondary roads and does have an airport.

3. Process for Determining Service Area

For the purposes of this assessment, community is defined as the geographical area based on recommendations from the Kentucky Hospital Association (KHA), which states that hospital data analysis should be at the county level and should include counties from which 75 percent of its inpatient population resides.

Based on a summary of Inpatient Discharges from calendar year 2013, the assessment advisory committee identified the community to include the 17 counties shown in *Exhibit 1*.

Exhibit 1 illustrates total discharges, charges, and percentage of total discharges for each county. Maps illustrated on page 3 and 4 present geographical information on Baptist Health Lexington and the defined community. The first map displays the location of Baptist Health Lexington within the community while the second map illustrates the 17 counties defined as the community in this assessment.

Based on origin of acute care discharges from January 1, 2013 through December 31 2013, the community has been identified as the counties listed in *Exhibit 1*. *Exhibit 1* presents Baptist Health Lexington's patient origin and charges for the 17 counties in its community. The maps that follow give a detailed location of Baptist Health Lexington's location in the community.

Exhibit 1
Baptist Health Lexington
2013 Summary of Inpatient Discharges By County (Descending Order)

County	Discharges	Total Charges	Percentage of Discharges	Cumulative Percent
Fayette, KY	6548	\$223,902,306	25.3%	25.3%
Jessamine, KY	1280	\$40,347,599	4.9%	30.2%
Madison, KY	856	\$39,802,323	3.3%	33.5%
Scott, KY	853	\$29,415,393	3.3%	36.8%
Franklin, KY	479	\$26,712,082	1.8%	38.7%
Woodford, KY	477	\$18,571,908	1.8%	40.5%
Clark, KY	433	\$19,526,904	1.7%	42.2%
Bourbon, KY	422	\$17,411,533	1.6%	43.8%
Whitley, KY	357	\$25,192,600	1.4%	45.2%
Anderson, KY	321	\$14,472,497	1.2%	46.4%

Other	6245	\$335,635,177		
	19658	\$861,979,046	100.0%	

3. Process for Determining Service Area (continued)

Identification and Description of Geographical Community

Baptist Health Lexington is located in Lexington, Kentucky. Lexington is a city in Fayette County at the intersection of I-64 running East/West and I-75 Running North/South. The area is an urban center surrounded by rural areas. Lexington is approximately 75 miles east of Louisville Kentucky and approximately 85 miles south of Cincinnati, Ohio. The following map geographically illustrates the hospital's location and nearby areas.

Exhibit 1.1

Source: KHA InfoSuite

I. Introduction

B. Mission, Vision and Values

Mission

Baptist Health demonstrates the love of Christ by providing and coordinating care and improving health in our communities

Vision

Baptist Health will lead the transformation to healthier communities

Faith-Based Values

Integrity
Respect
Excellence Collaboration
Compassion
Joy

C. Purpose

The purpose of the community health needs assessment is to document compliance with the Affordable Care Act (ACA), section 501 (r) outlined above.

The community needs health assessment was conducted from January 2014- April 2014.

Based on current literature and guidance from the Kentucky Hospital Association, the following actions were taken as part of Baptist Health Lexington’s community health needs assessment:

- The definition of “community” was established utilizing patient data regarding patient origin. The detail of this process is described in the Introduction under Process for Determining Service Area.
- The following were obtained for each county meeting our community definition using sources outlined in Appendix D:
 - Population demographics
 - Health factors and outcomes
 - Leading causes of death
- Healthcare Strategy Group (HSG) was engaged to analyze and estimate demand for physician services.
- Community input was provided through:
 - Fayette County Health Department
- Health risk factors were ranked according to prevalence in the community.
- Health needs were prioritized after review of the prevalence rankings and the information gathered in the steps above.

The process outlined above is documented in detail under Framework- Strategic Planning Model, subsection, Process/Methodology.

II. Executive Summary

The Affordable Care Act (ACA), enacted in March 2010, has added requirements for hospital organizations that have or seek to have 501(c)(3), tax-exempt status. The new provision, Internal Revenue Code (IRC) Section 501(r), requires that tax-exempt hospital organizations must:

- Conduct a Community Health Needs Assessment (CHNA) every three years
- Adopt an implementation strategy to meet the community health needs identified in the CHNA

The assessment must:

- Take into account input from persons who represent the broad interests of the community served by the hospital, including those with special knowledge of, or expertise in public health
- Be made widely available to the public
- Be completed every three years with the first being completed no later than fiscal year 2012

The assessment may:

- Be based on information collected by other organizations, such as public health agencies or nonprofit organizations
- Be conducted in collaboration with other organizations, including related organizations, other hospitals, and state and local agencies, such as public health departments

Source: Kentucky Hospital Association, Community Health Needs Assessment Toolkit

This document is a summary of all the available, relevant information and data collected during the community needs health assessment required by new legislation. It will serve as proof of compliance and a guide for the hospital until the next assessment.

The process illustrated in this document serves as the foundation for the prioritization and identification of the community's health needs and determination of healthcare resources to best meet those needs.

III. Framework- Strategic Planning Model

A. Key Stakeholders

1. *Baptist Healthcare System*

Baptist Healthcare System, Inc. ("BHS") and Baptist Healthcare Affiliates, Inc. ("BHA"), a wholly controlled affiliate of BHS, own and operate all seven of the Baptist affiliated hospitals located in the Commonwealth of Kentucky. BHS and BHA own more than 1,600 licensed acute care hospital beds in Louisville, LaGrange, Lexington, Paducah, Madisonville, Richmond and Corbin and manage the 300 bed Hardin Memorial Hospital in Elizabethtown, KY.

2. *Baptist Health Lexington*

The key stakeholders from Baptist Health Lexington are:

- Baptist Health Lexington Administrative Board
- William G. Sisson, East Regional Executive and President of Baptist Health Lexington
- Executive Management Team
- Baptist Health Medical Group
- Physicians affiliated with Baptist Health Lexington

The following individuals served on the CHNA committee:

- Gary Barnes, MBA, Regional Director of Planning, Baptist Health
- Phil Brandenburg, MBA, Planning Analyst, Baptist Health
- Teresa Smith, MS, RD, LD, Director of Community Education and HealthwoRx, Baptist Health Lexington Phillip Brandenburg, Planning Analyst, Baptist Health
- Amanda Henson, MSHA, MBA, Vice President Oncology, Baptist Health Lexington
- Susan Mobley, MBA, BSN, RN, NE-BC, Vice President of Cardiovascular Services East Region, Baptist Health Lexington

III. Framework- Strategic Planning Model

A. Key Stakeholders (continued)

3. Community

Community Stakeholders included representatives from the following organizations, businesses and agencies listed below. These representatives participated in the Community Health Needs Assessment and in the development of the Community Health Improvement Plan (CHIP).

- American Red Cross
- Alzheimer’s Assoc. of Greater KY & Southern Indiana
- Community Action Council
- Bluegrass Area Agency of Aging
- Frontier Nursing University
- Bluegrass Regional MHMR
- Hope Center
- Baptist Health Lexington
- Kentucky Pink Connection
- Clark Co. Health Department
- Kentucky Utilities
- Lexington Fire & Emergency
- KY Dept. of Public Health – Office of Health Equity & HIV/AIDS Branch
- Lexington HEALS Institute
- Lexington Clinic
- Lexington Police
- Lexington Fayette Co. Health Department
- Lexington Public Library
- Saint Joseph Hospital System
- PNC Bank
- Univ. of KY Healthcare
- Russell Cave Family Resource Center
- Univ. of KY Markey Cancer Center
- Univ. of KY Colleges of Dentistry, Nursing & Public Health

From the larger community stakeholders group, an eight (8) member CHIP Advisory Council was formed. This group will meet quarterly on an ongoing basis to track the progress of our community goals and objectives, and encourage sub-committee (action groups) to complete their assignments. The large stakeholders group will meet biannually to maintain chains of communication and receive updates on the overall progress of the CHIP. Following is the list of the CHIP Advisory Council members:

- Vickie Blevins, Kentucky Pink Connection
- Andrew Beckett, MPH, Lexington-Fayette County Health Department
- Dr. Ann Kelly, Univ. of Kentucky, College of Public Health
- Nancy Garth, RN, Univ. of Kentucky, Polk Dalton Clinic
- John Kim, Saint Joseph Hospital
- Mindy Sekhon, MPH, Lexington-Fayette County Health Department
- Teresa Smith, MS, RD, LD, Baptist Health Lexington
- Beth Willett, MPH, Clark County Health Department

III. Framework- Strategic Planning Model

B. Process/Methodology

To assess the needs of the greater community of the Lexington-Fayette County area in which Baptist Health Lexington resides, the hospital partnered with the Lexington- Fayette County Health Department as a participant in the MAPP process (Mobilizing for Action through Planning and Partnerships). The MAPP framework is a process designed to assess the community health status and needs, prioritize health issues and identify resources to address them. This is a community-driven process which engages the community and develops partnerships. The main objectives of the process were to:

- Complete a comprehensive assessment to accurately depict the community's health status.
- Define key strategic issues, goals and strategies around those goals
- Develop a Community Health Improvement Plan
- Take action to create positive health outcomes

Because BHL's service area is defined as a seventeen (17) county area which includes Fayette County, additional assessment tools were utilized to compile an assessment of those areas. (Refer to Secondary Data Sources, **pg. 27**) By 2013, each of the counties within the BHL service area will have completed the MAPP process.

Community Assessment

The comprehensive MAPP community assessment process involved the use of four assessments to create a well-rounded base of data & information. The four assessments included:

- 2010 Fayette County Assessment – this assessment gathered community thoughts and opinions about issues of greatest importance to the community. The information was gathered through a survey mailed to 6,000 randomly selected households in Fayette County. In addition, 5 community focus group forums were conducted to collect qualitative data about issues in the community from under- represented groups in the survey return.

Community Focus Group Forums involved community members from the following neighborhood association areas:

- Cardinal Valley/Cross Keys
- Winburn/Russell Cave
- William Wells Brown/Arlington/Yates
- Pimlico/Greentree
- Meadowthorpe/Leestown Road

III. Framework- Strategic Planning Model

A. Process/Methodology (continued)

- o Community Health Status Report – Fayette County health status data was compiled from the following secondary sources:
 - BRFSS Dataset from Centers of Disease Control and Prevention
 - KY Health Facts from Foundation for Healthy Kentucky
 - American Community Survey 2009
 - Centers for Medicare and Medicaid Services
 - National Center for Health Statistics
 - Lexington Fayette County Police Department
 - KY Cabinet for Health and Family Services
 - Substance Abuse and Mental Health Service Administration
 - U.S. Census 2010

Community Assessment (continued)

- o Local Public Health System Assessment – This assessment provided a look at the strength and weaknesses of the Fayette County public health system as well as gaps in quality of care. Forty-five (45) community stakeholders met in June 2011 and responded to a series of questions from the National Public Health Performance Standard Local instrument designed by the Centers for Disease Control and Prevention.

Community Stakeholders included representatives from the following community organizations:

- | | |
|--|---|
| <ul style="list-style-type: none"> • American Red Cross • Alzheimer’s Assoc. of Greater KY & Southern Indiana • Community Action Council • Bluegrass Area Agency of Aging • Frontier Nursing University • Bluegrass Regional MHMR • Hope Center • Baptist Health Lexington • Kentucky Pink Connection • Clark Co. Health Department • Kentucky Utilities • Lexington Fire & Emergency • KY Dept. of Public Health – Office of Health Equity & HIV/AIDS Branch | <ul style="list-style-type: none"> • Lexington HEALS Institute • Lexington Clinic • Lexington Police • Lexington Fayette Co. Health Department • Lexington Public Library • Saint Joseph Hospital System • PNC Bank • Univ. of KY Healthcare • Russell Cave Family Resource Center • Univ. of KY Markey Cancer Center • Univ. of KY Colleges of Dentistry, Nursing & Public Health |
|--|---|

III. Framework- Strategic Planning Model

A. Process/Methodology (continued)

- o **Forces of Change Assessment** – Also during the June 2011 community stakeholders meeting, the 45 community stakeholders (as listed above) compiled a list of identified factors that are or will be influencing the health status of our community.

Identifying Strategic Issues – In November 2011, the MAPP Coalition met to:

- review the data and supportive information gathered from the community assessment process,
- develop a manageable number of overarching strategic issues, and
- identify action strategies that would address those issues

The Fayette County Health Department initiatives are part of a 5 year process. Baptist Health Lexington has been an active participant in these initiatives and will continue to work with the Fayette County Health Department on issues surrounding obesity until the MAPP Coalition identifies other initiatives.

Service Area Assessment - The overall assessment is the results of an in-depth review of the 2014 Kentucky County Health Rankings compiled by the University of Wisconsin Population Health Institute in collaboration with the Robert Wood Johnson Foundation. Data analysis for each county included mortality and morbidity rates, health behaviors, clinical care, social and economic factors, and the physical environment. Additionally, each county received two summary ranks: Health Outcomes and Health Factors. Health outcomes represent how healthy a county is while health factors represent what influences the health of the county.

IV. Profiling the Community

A. Demographics and Vital Statistics

The U. S. Census Bureau has compiled population and demographic data based on the 2010 census. Truven Health Analytics, a company specializing in healthcare and demographics, has furnished this data on the county level to estimate population trends from 2014 to 2019. Population estimates by age and county for Baptist Health Lexington’s community are presented in Exhibit 2.

Exhibit 2

IV. Profiling the Community

A. Demographics and Vital Statistics (continued)

Exhibit 2 illustrates that the overall population is projected to increase over the next 5-year period from 797,196 to 824,627. The 65-plus age cohort that utilizes the majority of health care services is projected to increase from 106,792 to 128,557. The changes to the composition of the total community between male and female is projected to remain relatively constant over the next 5 years.

Exhibit 2.1 provides the percent difference for each county from an estimated 2014 to projected 2019 population. *Exhibit 2.1* illustrates that the overall population is projected to increase by 3.3 percent. The largest percentage of change will be in the 65-plus age cohorts. The 65-plus age cohort is projected to increase by 16.9 percent. This increase in the 65 and over age cohort will impact the amount and type of services required by the community.

Exhibit 2.1

IV. Profiling the Community

A. Demographics and Vital Statistics (continued)

Certain characteristics of a population can be factors in determining the health care services required by a community. The *Exhibit 2.2* is an analysis of the age distribution of the population for the primary community. This analysis is provided at the county and community level.

Exhibit 2.2
Baptist Health Community County
Estimated 2014 Population and Projected 2019 Population with Percent Totals

County	Under 15	15-34 years	35-44 years	45-64 years	65+ Years	Total	Male	Female

IV. Profiling the Community

A. Demographics and Vital Statistics (continued)

Very similar to the 16.9 percent growth seen in the overall number of people in the 65-year-plus Age Cohort in *Exhibit 2*, *Exhibit 2.2* indicates that as a percent of total population for the community, the 65-year-plus age cohort will make up 13.4 percent of the population in 2014 as compared to 15.6 percent in 2019.

While the relative age of the community population can impact community health needs, so can the ethnicity and race of a population. *Exhibit 3* shows the population of the community by ethnicity by illustrating the Hispanic versus non-Hispanic residents. A review of this population indicates the highest Hispanic population is in Fayette County followed by the contiguous counties of Madison and Scott.

Exhibit 3
Baptist Health Lexington Community County
Estimated 2014 Population vs Projected 2019 Population with Percent of Difference

County	Estimated 2014			Projected 2019			Percent Difference		Percent Total

IV. Profiling the Community

A. Demographics and Vital Statistics (continued)

The socioeconomic characteristics of a geographic area influence the way residents access health care services and perceive the need for health care services within society. The economic status of an area may be assessed by examining multiple variables within the community. The following exhibits are a compilation of data that includes household income, labor force, employee by type of industry, unemployment rate, educational attainment, and poverty for the community served by Baptist Health Lexington. These standard measures will be used to compare the socioeconomic status of the counties that make up the community.

Exhibit 5 presents the average and median income for households in each county. Median and average income is projected to only slightly increase between 2014 and 2019.

Exhibit 5
Baptist Health Lexington
Estimated Family Income for 2014 and Projected Family Income for 2019 with Percent of Difference

County Name	Established 2014		Projected 2019		Percent Difference	
	Median Income	Average Household Income	Median Income	Average Household Income	Median Income	Average Household Income
Anderson	\$53,542	\$61,358	\$55,689	\$63,727	\$4.01	\$3.86
Bourbon	\$43,136	\$55,611	\$45,136	\$58,644	\$4.64	\$5.45

IV. Profiling the Community

B. Primary Data

1. Lexington-Fayette County Community Health Improvement Plan (*Appendix A*)
2. Community Health Status Report Fayette County 2011 (*Appendix B*)
3. Community Assessment Aggregate Report – Worksite Wellness Business/Industry Profile (*Appendix C*)

C. Secondary Data

Health Status of Community

The health of a community depends on many different factors including the environment, education and jobs, access to and quality of healthcare and individual behaviors. This section summarizes the health status of the seventeen (17) counties within the Baptist Health Lexington service area: Anderson, Bourbon, Boyle, Clark, Estill, Fayette, Franklin, Garrard, Harrison, Jessamine, Lincoln, Madison, Mercer, Nicholas, Powell, Scott and Woodford. This assessment is the results of an in-depth review of the 2014 Kentucky County Health Rankings compiled by the University of Wisconsin Population Health Institute in collaboration with the Robert Wood Johnson Foundation. Data analysis for each county included mortality and morbidity rates, health behaviors, clinical care, social and economic factors, and the physical environment. Additionally, each county received two summary ranks: Health Outcomes and Health Factors. Health outcomes represent how healthy a county is while health factors represent what influences the health of the county. Following are the health status summaries for each of our seventeen counties. (*Note: Kentucky has 120 counties*)

IV. Profiling the Community

C. Secondary Data (continued)

Anderson

Health Outcomes Rank – 24
Health Factors Rank – 5

Strengths:

- Well insured
- Low diabetes
- Low children in poverty
- Good quality of life measures
- Decreased smoking rates

Challenges:

- Obesity
- Alzheimer’s death rates
- Cardiovascular deaths
- Cancer deaths
- Physical inactivity

Leading Causes of Death:

- Heart Disease
- Cancer

IV. Profiling the Community

D. Other Hospital Resources (continued)

The following is a brief description of the hospitals listed in *Exhibit 14*:

Bluegrass Community Hospital- BGCH is a 25- bed facility located in the heart of horse country in Versailles, KY. The hospital proudly serves Woodford and Anderson Counties in Central Kentucky. Licensed as a critical access hospital, it offers a broad range of inpatient, surgical, emergency and diagnostic services.

Source: bluegrasscommunityhospital.com/about_bluegrass.aspx

Bourbon Community Hospital- Bourbon Community Hospital is a 58-bed acute care facility in the heart of the Bluegrass. They offer the latest in technology in a quiet hometown atmosphere. The medical staff consists of 140 physicians covering 22 specialties. Bourbon Community Hospital is part of LifePoint Hospitals.

Source: bourbonhospital.com/careers/physician_opportunities.aspx

Clark Regional Medical Center- Clark Regional Medical Center is a 79-bed, community hospital. It has over 150 physicians, 400 employees, and 100 volunteers on its staff. Clark Regional also operates a continuum of care center in Winchester and a rural health clinic in Powell County. Construction has been completed on a new 131,000-square-foot facility, featuring state-of-the-art technology including new and expanded services including diagnostic and emergency Services, home-like labor and delivery suites, private patient rooms, and a skilled nursing facility. Clark Regional is a part of LifePoint Hospitals.

Source: clarkregional.org/about_crmmc.aspx

Eastern State Hospital- Eastern State is located in Lexington, KY and cares for adults whose needs can no longer be met by society. As an inpatient part of a behavioral health system, Eastern State Hospital provides mental health, mental retardation and substance abuse services. It is an entity of Bluegrass Regional Mental Health and is managed by UK Health System.

Source: bluegrass.org/entities/ESH/mission.shtm

Ephraim McDowell Fort Logan Hospital- Located in Stanford, Kentucky, Ephraim McDowell Fort Logan Hospital is a 25- bed critical access hospital offering quality health care and round-the-clock emergency services. Fort Logan Hospital is part of Ephraim McDowell Health.

Source: emhealth.org/index.php/locations/emrmmc

Ephraim McDowell Regional Medical Center- The Medical Center is a 222-bed hospital located in downtown Danville. The facility is dedicated to serving the needs in Boyle and surrounding counties. State-of-the-art technology provides the medical staff with fast, accurate information and advanced techniques to diagnose and treat illnesses. Ephraim McDowell Regional Medical Center is the core of Ephraim McDowell Health.

Source: emhealth.org/index.php/locations/emrmmc

IV. Profiling the Community

D. Other Hospital Resources (continued)

Frankfort Regional Medical Center- Frankfort Regional Medical Center is a 173-bed hospital, located off I-64 in Central Kentucky approximately 50 miles from Lexington. The medical center serves Franklin, Anderson and surrounding counties. There are nearly 200 physicians practicing, along with 460 registered nurses and clinical staff.

Source: frankfortregional.com/about/

Georgetown Community Hospital- Georgetown Community Hospital is a 75-bed acute care facility where patients have access to a broad range of quality healthcare, utilizing the most advanced technology including bariatric, orthopedic, and general surgery; women's services; and outpatient services including physical therapy and radiology. The hospital continues to add new medical services and to grow the number of specialist and primary care physicians.

Source: georgetowncommunityhospital.com/about_us/georgetown_community_hospital.aspx

Harrison Memorial Hospital- HMH is a 61-bed hospital serving Harrison and surrounding counties. Harrison Memorial is a locally owned and controlled, not-for-profit facility. There are currently 20 physicians on the active medical staff and more than 50 consulting physicians. The facility has recently expanded to include a new emergency department, state-of-the-art labor and delivery suites, newborn nursery and new space dedicated to specialty clinics.

Source: harrisonmemhosp.com/about.html

Marcum And Wallace Memorial Hospital- MWMH is a licensed critical access hospital located in Irving, KY. This modern facility serves as a regional referral center for a wide geographic region, including Estill, Lee, Powell, Clark, Jackson, Madison, Owsley and Wolfe counties. MWMH is sponsored by Catholic Health Partners (CHP), one of the largest not-for-profit health systems in the nation.

Source: marcumandwallace.org/about_marcum.asp

Nicholas County Hospital- Nicolas County Hospital is a 16 bed critical access hospital serving Nicholas and surrounding counties. Numerous outpatient diagnostic services are offered along with a Rural Health Clinic. In addition to in/out patient services specialty service clinics are offered in urology, podiatry and two cardiology clinics. Nicholas County Hospital is operated by Johnson Mathers Health Care (JMHC), which is a private, not-for-profit organization.

Source: johnsonmathers.org/hospital.htm

Baptist Health Richmond- Baptist Health Richmond is a 105-bed (acute care), not-for profit, privately owned and operated healthcare facility. Baptist Health Richmond is located in the foothills of Appalachia, in Central Kentucky in the community of Richmond. Baptist Health Richmond's immediate service area is Madison, Estill, Garrard and Jackson counties. The Baptist Health Richmond Medical Staff consists of approximately 70 physicians and medical specialists.

Source: pattieaclay.org/cms/About+Us/2.html

IV. Profiling the Community

D. Other Hospital Resources (continued)

Ridge Behavioral Health System- Located in Lexington, KY, The Ridge is a 110-bed hospital, providing psychiatric and chemical dependency services to children, adolescents and adults on an inpatient and outpatient basis. Care is provided according to an established code of ethical conduct and strict adherence to patient rights.

Source: ridgebhs.com

Saint Joseph Berea- Saint Joseph Berea is a 25-bed critical access hospital serving the residents of Madison, Jackson, Rockcastle, Estill and Garrard counties. The hospital includes a fully staffed No Wait Emergency Department, Berea Family Medicine, Breast Center, Berea Specialty Clinic, Diabetes and Nutrition Center, Cardiovascular Services, Senior Renewal Center, Sleep Wellness Center, Surgical Services, and Wound Care Center. Saint Joseph Berea is part of KentuckyOne Health.

Source: sjhlex.org/Berea

Saint Joseph East- Saint Joseph East, a community hospital with 217 beds, is located in the rapidly growing southeastern part of Lexington, Kentucky. At Saint Joseph East, maternal and childcare, cardiovascular services, ambulatory surgery and 24-hour emergency care are supported through traditional inpatient and outpatient programs. Additional specialty services include the Heart Institute, Breast Center, Sleep Wellness Center and the Center for Weight Loss Surgery. Saint Joseph East is part of KentuckyOne Health.

Phone:	(502) 438-5874	Website:	
Purpose:	Managed Care Organization Outreach Coordinator		

Agency Name:	WellCare of Kentucky		
Address:	2480 Fortune Drive Suite 200		
Contact Person	Brittany Arthur	E-mail:	Brittany.arthur@wellcare.com
Phone:	(859) 264-5107	Website:	
Purpose:	Managed Care Organization Community Advocate		

V. Health Priority Issue and Strategies

A. Identified Needs/Overview in Prioritized Order

An in-depth analysis and trending of all primary and secondary data sources, demographic and vital statistics information rendered the following ranking of community health needs for the BHL service area.

Exhibit 16 is the list of the significant health risk factors which contribute to the overall health status of the 17 counties within the BHL service area. These risk factors are listed in order of prevalence.

Exhibit 16
Baptist Health Lexington 17 County Service Area
Health Factors – Summary & Ranking (Prevalence)

Health Risk Factor (measure):	Counties w/ Prevalence:	Rank:
Adult obesity (% adults w/ BMI ≥ 30)	17	1
Physical Inactivity (% adult pop. ≥ 20)	15	2
Uninsured (% of pop. ≤ 65 w/o health insurance)	15	2
Primary care physicians (ratio of pop. to PCP)	14	3
Dentists (ratio of pop. to dentists)	14	3
Heart disease death rate (death rates/100,000 pop.)	13	4
Adult Smoking (% adults who are current smokers)	13	4
Cancer death rate (death rates/100,000 pop.)	12	5
Alzheimer’s death rate (death rates/100,000 pop.)	11	6
Accidents death rate (death rates/100,000 pop.)	11	6
Teen births (# of births/1,000 female pop. ages 15-19)	11	6
Lung disease death rate (death rates/100,000 pop.)	10	7
Injury deaths (death rates/100,000 pop.)	10	7
Stroke death rate (death rates/100,000 pop.)	9	8
Alcohol-impaired driving deaths (% of driving deaths w/ alcohol involvement)	9	8
Poor physical health days (ave. # physically unhealthy days reported in past 30 days)	8	9
Poor mental health days (ave. # mentally unhealthy days reported in past 30 days)	8	9
Access to exercise opportunities (% of pop. w/ adequate access to locations for physical activity)	8	9
Mammography screening (# of female Medicare enrollees ages 65-69 that receive mamm screening)	8	9
Children in poverty (% of children ≤ 18 in poverty)	8	9
Diabetes death rate (death rates/100,000 pop.)	7	10
Sexually transmitted infections (# of newly diagnosed chlamydia cases/100,000 pop.)	7	10
Unemployment (% of pop. ≥ 16 unemployed but seeking work)	7	10
Mental health providers (ratio of pop. to mental health providers)	7	10
Premature death (yrs. of potential life lost before age 75 per 100,000 pop.)	6	11
Preventable hospital stays (# of hospital stays for ambulatory-care sensitive conditions per 1,000 Medicare enrollees)	6	11
Poor or fair health (% adult pop. reporting fair or poor health)	5	12
Diabetic monitoring (% of diabetic Medicare enrollees ages 65-75 that receive HbA1c monitoring)	5	12
Low birth weight (% of live births w/low birth weight;<2500 gms)	4	13
Food environment index (index of factors that contribute to a health food environment; 0-10)	4	13
Violent crimes (# of reported violent crime offenses per100,000 pop.)	4	13
Excessive drinking (% adult pop. reporting binge or heavy drinking)	3	14

V. Health Priority Issue and Strategies

B. Priority Health Issues and Process

Exhibit 17 illustrates the detailed analysis summary and defines the established criteria to determine prevalence of the specified health risk factors

Health Risk Factor:	Rank	Criteria for Prevalence:	Counties WITHOUT Prevalent Risk Factor:	Counties WITH Prevalent Risk Factor:
Health Outcomes: Adult obesity US=31%; KY=32%	17	≥25% adults that report a BMI ≥30		Anderson (33%) Bourbon (32%) Boyle (30%) Clark (31%) Estill (31%) Fayette (27%) Franklin (32%) Garrard (36%) Harrison (28%) Jessamine (31%) Lincoln (30%) Madison (29%) Mercer (32%) Nicholas (31%) Powell (32%) Scott (32%) Woodford (31%)
Physical inactivity US=27%; KY=29%	15	≥24% adults age 20+ reporting no leisure-time physical activity	Fayette (23%) Scott (22%)	Anderson (31%) Bourbon (36%) Boyle (26%) Clark (27%) Estill (33%) Franklin (30%) Garrard (35%) Harrison (31%) Jessamine (28%) Lincoln (36%) Madison (28%) Mercer (28%) Nicholas (35%) Powell (32%) Woodford (31%)
Uninsured US=17%; KY=16%	15	≥15% pop. under age 65 w/o health insurance	Anderson (14%) Scott (13%)	Bourbon (19%) Boyle (16%) Clark (16%) Estill (18%) Fayette (16%) Franklin (15%) Garrard (18%) Harrison (17%) Jessamine (17%) Lincoln (20%) Madison (17%) Mercer (16%) Nicholas (19%) Powell (17%) Woodford (16%)
Primary Care Physicians	14	≥1500:1 ratio of pop. to	Boyle (1102:1)	Anderson (2716:1)

Primary Care Physicians US=2015:1; KY=1551:1	14	≥1500:1 ratio of pop. to PCPs	Boyle (1102:1) Fayette (868:1) Jessamine (1418:1)	Anderson (2716:1) Bourbon (1665:1) Clark (1988:1) Estill (2899:1) Franklin (2490:1) Garrard (3383:1) Harrison (2069:1) Lincoln (2224:1) Madison (1542:1) Mercer (4252:1) Nicholas (7000:1) Powell (12,483:1) Scott (1791:1) Woodford (1791:1)
Dentists US=2670:1; KY=1683:1	14	≥1500:1 ratio of pop. to dentists	Boyle (1583:1) Fayette (783:1) Franklin (1379:1)	Anderson (1983:1) Bourbon (1583:1) Clark (2226:1) Estill (2070:1) Garrard (4229:1) Harrison (2645:1) Jessamine (2787:1) Lincoln (24,370:1) Madison (2445:1) Mercer (4270:1) Nicholas (2346:1) Powell (2499:1) Scott (3330:1) Woodford (1805:1)
Heart disease death rate US=169.77; KY=203.41	13	≥ 200 deaths/100,000 pop. Adult smoking US=21%; KY=26%	13	≥ 21% adults who are current smokers	Anderson (19%) Fayette (16%) Scott (15%) Woodford (14%)	Bourbon (21%) Boyle (21%) Clark (40%) Estill (36%) Franklin (28%) Garrard (25%) Harrison (31%) Jessamine (27%) Lincoln (31%) Madison (22%) Mercer (24%) Nicholas (30%) Powell (45%)
Cancer death rate US=163.23; KY=199.31	12	≥ 200 deaths/100,000 pop.	Fayette (190.26) Garrard (199.61)	Anderson (214.37) Bourbon (206.17)

Cancer death rate US=163.23; KY=199.31	12	≥ 200 deaths/100,000 pop.	Fayette (190.26) Garrard (199.61) Jessamine (196.08) Madison (198.38) Scott (194.28)	Anderson (214.37) Bourbon (206.17) Boyle (206.78) Clark (206.81) Estill (2417.99) Franklin (222.28) Harrison (210.81) Lincoln (224.18) Mercer (229.03) Nicholas (239.42) Powell (285.98) Woodford (205.9)
Alzheimer's death rate US=23.52; KY=31.41	11	≥ 31 deaths/100,000 pop.	Bourbon (19.3) Estill (18.18) Franklin (29.69) Garrard (27.47) Harrison (24.11) Nicholas (25.85)	Anderson (40.53) Boyle (52.05) Clark (47.66) Fayette (31.62) Jessamine (37.47) Lincoln (34) Madison (31.98) Mercer (33.73) Powell (52.05) Scott (39.13) Woodford (52.39)
Accidents death rate US=39.39; KY=55.71	11	≥ 50 deaths/100,000 pop.	Anderson (49.62) Boyle (48.96) Fayette (38.64) Franklin (45.67) Garrard (48.59) Madison (46.64) Scott (39.44)	Bourbon (60.15) Clark (66.18) Estill (82.69) Harrison (62.94) Jessamine (52.92) Lincoln 67.59) Mercer (56.23) Nicholas (78.13) Powell (100.25) Woodford (57.65)
Teen births US=41; KY=48	11	≥45 # of births per 1,000 female pop. ages 15-19		Anderson (47) Bourbon (51) Clark (55) Estill (65) Franklin (46) Garrard (48) Harrison (59) Lincoln (63) Mercer (56) Nicholas (52) Powell (80)
Lung disease death rate US=42.14; KY=64.62	10	≥ 53 deaths/100,000 pop.	Clark (49) Fayette (45.63) Garrard (49.13) Jessamine (51.65) Madison (52.9) Scott (50.72) Woodford (46.91)	Anderson (62.69) Bourbon (61.18) Boyle (54.7) Estill (57.44) Franklin (59.08) Harrison (59.71) Lincoln (78.65) Mercer (62.63) Nicholas (93.38) Powell (81.63)
Injury deaths	10	≥80 # of deaths due to		Bourbon (93)

Injury deaths US=73.8; KY=81	10	≥80 # of deaths due to injury per 100,000 pop.		Bourbon (93) Boyle (84) Clark (109) Estill (127) Harrison (98) Lincoln (104) Mercer (83) Nicholas (107) Powell (149) Woodford (89)
Stroke death rate US=36.17; KY=41.69	9	≥ 53 deaths/100,000 pop.	Anderson (49.5) Bourbon (51.99) Fayette (43.19) Garrard (41.18) Jessamine (44.76) Lincoln (44.27) Madison (51.16) Mercer (49.01)	Boyle (54.7) Clark (57.82) Estill (60.48) Franklin (54.22) Harrison (56.24) Nicholas (59.66) Powell (64.26) Scott (55.98) Woodford (54.51)
Alcohol-impaired driving deaths US=31%; KY=29%	9	≥30% of driving deaths with alcohol involvement		Anderson (36%) Bourbon (35%) Fayette (33%) Garrard (33%) Harrison (30%) Jessamine (42%) Lincoln (45%) Madison (31%) Scott (33%)
Poor physical health days US=3.7; KY=4.8	8	≥ 4.3 ave. # of physically unhealthy days reported in past 30 days		Bourbon (4.3) Clark (6.5) Estill (4.5) Garrard (5.0) Jessamine (4.3) Lincoln (7.7) Powell (5.0) Scott (5.9)
Poor mental health days US=3.5; KY=4.3	8	≥3.9 ave. # of mentally unhealthy days reported in past 30 days	Bourbon (no data) Harrison (no data) Nicholas (no data) Powell (no data)	Boyle (5.4) Clark (4.8) Estill (6.6) Franklin (4.5) Garrard (6.2) Jessamine (4.0) Lincoln (5.1) Mercer (4.4)
Access to exercise opportunities US=65%; KY=72%	8	< 65% of pop. with adequate access to locations for physical		Boyle (62%) Garrard (19%) Harrison (43%) Lincoln (34%) Mercer (54%) Nicholas (12%) Scott (63%) Woodford (66%)
Mammography screening	8	≤60% of female Medicare		Boyle (58.9%)

Mammography screening US=61%; KY=60.1%	8	≤60% of female Medicare enrollees ages 67-69 that receive mammography screening		Boyle (58.9%) Franklin (58.3%) Garrard (58.8%) Harrison (49.4%) Lincoln (50.8%) Mercer (52.3%) Powell (58.5%) Scott (59.8%)
Children in poverty US=24%; KY=26%	8	≥25% of children under age 18 in poverty		Bourbon (26%) Boyle (25%) Estill (40%) Garrard (29%) Harrison (25%) Lincoln (31%) Nicholas (32%) Powell (41%)
Diabetes death rate US=21.18; KY=24.14)	7	≥ 24 deaths/100,000 pop.	Anderson (20.75) Clark (18.12) Fayette (23.43) Harrison (18.86) Jessamine (18.28) Lincoln (20.84) Madison (14.53) Scott (21.43) Woodford (17.66)	Bourbon (25.69) Boyle (24.11) Estill (24.95) Garrard (27.15) Mercer (24.72) Nicholas (51.28) Powell (26.98)
Sexually transmitted infections US=291; KY=394	7	≥300 # of newly dx chlamydia cases per 100,000 pop.		Boyle (513) Clark (450) Fayette (511) Franklin (578) Jessamine (306) Lincoln (405) Madison (370)
Unemployment US=7%; KY=8.3%	7	≥8.3% of pop. aged 16+ unemployed but seeking work		Boyle (9.6%) Estill (8.7%) Garrard (8.7%) Lincoln (11.1%) Mercer (8.3%) Nicholas (10.4%) Powell (10.1%)
Mental Health Providers US=1128:1; KY=621:1	7	≥1500:1 ratio of pop. to mental health providers	Anderson (1148:1) Bourbon (1428:1) Boyle (604:1) Estill (1317:1) Fayette (370:1) Franklin (955:1) Lincoln (903:1) Mercer (890:1) Woodford (1330:1)	Clark (2095:1) Garrard (4229:1) Harrison (2315:1) Jessamine (1618:1) Nicholas (3520:1) Powell (2499:1) Scott (2378:1)

Premature Death US=7681; KY=8900	6	> 9000 yrs. lost before age 75 per 100,000 population		Clark (9,419) Estill (12,412) Harrison (12,287) Lincoln (10,742) Nicholas (11,289) Powell (13,168)
Preventable hospital stays US=65.3; KY=94	6	≥80 # of hospital stays for ambulatory-care sensitive conditions per 1,000 Medicare enrollees		Estill (105) Franklin (88) Harrison (106) Lincoln (92) Nicholas (132) Powell (133)
Poor or fair health US=17%; KY=21%	5	≥ 19% adults reporting poor or fair health	Nicholas (no data)	Clark (20%) Estill (29%) Garrard (19%) Lincoln (35%) Powell (22%)
Diabetic monitoring US=85%; KY=85%	5	≤85% of diabetic Medicare enrollees ages 65-75 that receive HbA1c monitoring		Bourbon (84%) Boyle (84%) Mercer (83%) Nicholas (85%) Powell (84%)
Low birth weight US=8%; KY=9.1%	4	≥10% of live births with low birth weight (<2500 grams)		Clark (10.2%) Garrard (10.4%) Harrison (10.7%) Nicholas (11.7%)
Food environment index US=7.3; KY=7.2	4	≤ 7.2 index of factors that contribute to a healthy food environment, (1-10)		Boyle (6.5) Estill (6.8) Garrard (6.8) Lincoln (7.1)
Violent crimes US=199; KY=235	4	≥235 # of reported violent crime offenses per 100,000 pop.		Clark (295) Fayette (490) Franklin (274) Scott (335)
Excessive drinking US=16%; KY=12%	3	≥10% adults reporting binge or heavy drinking	Madison (7%) All other counties (no data)	Fayette (11%) Franklin (11%) Scott (11%)

After compiling and analyzing all of the data in this assessment, BHL will pursue the following benchmarking, targets, ideas and strategies during the implementation plan. Some of the strategies will address multiple needs. These lists are not intended to be exhaustive and do not imply there is only one way to address the identified health needs.

Obesity, cardiovascular disease and cancer, including breast, colorectal and lung were the health needs of the community with the highest priority.

V. Health Priority Issue and Strategies

B. Priority Health Issues and Process (continued)

Obesity

The rate of obesity is increasing in the state of Kentucky. Almost 1.4 million adults in Kentucky are obese, 300,000 more individuals than 4 years ago. (Source: *County Health Rankings.org, 2015*) All of the counties within our service area had obesity as the most prevalent health risk factor. Adult obesity, physical inactivity, access to recreational facilities and access to healthy foods are some of the highest ranked health needs in the community. Changes in these areas can have a positive impact on the overall health of the community. Obesity as it relates to lack of physical activity and poor nutritional choices is linked with the increased risk of several other medical conditions which were also identified as prevalent health issues within our community i.e. diabetes, cardiovascular disease and certain cancers.

Diseases of the Heart and Cancer

Cardiovascular disease is the leading cause of death in Kentucky, and cancer deaths rank second. (Source: *County Health Rankings.org, 2015*) The two leading causes of death in each of the seventeen counties within our service area are diseases of the heart and malignant neoplasms. Health education on modifiable risk behaviors and early detection are essential to improving the community's health. Promoting an awareness of individual health risks through clinical preventive services such as routine disease screening can significantly reduce the risk of illness, disability, early death and medical costs.

Other Identified Health Risk Factors

Baptist Health Lexington works collaboratively with other community resources to provide, support and serve as a referral source to address the additional identified health needs that fall below the significant prevalence level for our service area. (Section IV. D. Other Hospital Resources and Section IV. E. Community Health Care Resources, pgs. 45 - 91)

It is not within the scope of Baptist Health Lexington's services, expertise or resources to be able to address all of the risk factors that have been identified as influencers of our community's health status. But it is through networking and partnerships with other community stakeholder organizations and agencies that these issues are being addressed.

Impact issues such as unemployment and uninsured populations are being dealt with by economic development groups, Commerce Lexington, Kentucky Chamber of Commerce, Lexington Fayette Urban County Government, and County Health Departments.

Safe neighborhoods/safe community issues are being examined by Lexington Fayette County Police Department, Department of Parks and Recreation, Safe Kids Coalition, and Kentucky Department of Transportation.

VI. The Path Ahead/Next Steps

A. Obesity

Address obesity through education, prevention and community-based initiatives

BHL will address obesity as a member of the Lexington-Fayette County Community Health Improvement Plan. The goals and objectives as set forth by the Lexington-Fayette County Community Health Improvement Plan are as follows:

Goal 1: Encourage families in Fayette County to increase physical activity across the continuum.

Outcome Objective: Decrease the no exercise rate in Fayette County as measured by the BRFSS by 2018.

Impact and Process Objectives (Implementation Steps):

Continue expanding the program directory for physical activity venues and identify mechanisms of assistance for participation in programs

Disseminate information through partners and LFCHD website

- Partner with United Way of the Bluegrass
- Partner with medical professional associations
- Partner with Cooperative Extension (UK)
- Partner with groups represented on MAAP Coalition
- Partner with City Council/Mayor's Office

Goal 2: Promote the availability and access to fresh and affordable produce in food deserts throughout Fayette County.

Outcome Objective: Continue increasing the number of community food venues in food deserts in Fayette County that provide fresh produce by 2018.

Impact and Process Objectives (Implementation Steps):

- Continue to identify free locations within Fayette County to have farmers markets and health fairs/health education events by 2018
- Continue to identify new stakeholders to partner with existing stakeholders investing in the Lexington Tweens Nutrition and Fitness Coalition's Healthy Corner Store Initiative by 2018

VI. The Path Ahead/Next Steps

A. Obesity (continued)

Address obesity through education, prevention and community-based initiatives

Goal 3: Improve worksite wellness in Fayette County.

Outcome Objective: Identify and increase the number of organizations in Fayette County that offer worksite wellness programs by 2018.

Impact and Process Objectives (Implementation Steps):

- Continue to grow existing worksite wellness programs and engage new employer groups in Fayette County
- Continue to support existing efforts by the Chamber of Commerce to improve worksite wellness and disseminate available resources and information to partners

Goal 4: Form a partnership with the 16th District (Fayette County) PTA

Impact and Process Objectives (Implementation Steps):

- Continue to work with identified partner schools to develop on-site wellness activities/programs for faculty, staff, students and families
- Identify barriers to participation in wellness councils by 2018
- Assist schools in overcoming barrier to participation in wellness councils and link them with existing wellness councils in order to develop a wellness council implementation strategy by 2018

VI. The Path Ahead/Next Steps

B. Cardiovascular

Address cardiovascular disease through education and prevention

Goal:

By 2018, BHL will educate or provide screening opportunities to at least 75% of the adult population (35 years +) in the primary service area on the importance of cardiovascular health and the prevention of cardiovascular disease.

- Expansion of the cardiac disease prevention website
- Use mass media to promote healthy lifestyle and early recognition of symptoms
 - Heart Health risk assessment available online and promoted via television and radio advertisements
 - Health Talks, educational videos with cardiovascular physicians addressing key topics related to heart disease, are available on the Baptist Health Lexington website
 - Baptist Express Care screenings
 - Worksite wellness screenings
 - Other community health fair screenings and events
 - Social media

BHL will also promote cardiovascular health through:

- Midsummer Night's Run 5K Race
- HealthwoRx exercise classes and fitness programs
- Atrial fibrillation and heart failure clinics that improve access to care for patients in the community
- Membership and participation in the American Heart Association

VI. The Path Ahead/Next Steps

C. Cancer

Address cancer through education and prevention to include breast cancer, lung cancer and colon cancer

Goal:

By 2018, BHL will educate at least 75% of the adult population (35 years +) in the primary service area regarding the importance of early detection and prevention of breast, lung and colon cancer.

Breast:

- Provide educational information at BHL regional mammography facilities
- Promote the importance of mammography exams for women in the community through community outreach events and health fairs
- Expand oncology website to provide links to educational resources

Lung:

- Offer early detection lung cancer screening through use of low dose CT scans
- Provide smoking cessation classes
- Provide education regarding cancer risks of primary and second-hand smoking

Colon:

- Implement a Digestive Health Center to include access to nurse consultation
- Promote early detection preventative screenings through community outreach educational events and health fairs
- Provide educational information at all BHL service sites (i.e. outpatient centers, primary care centers, etc.)

BHL will also promote cancer services through:

- High Risk Clinic available for patients identified through genetic counseling or family history
- Cancer risk assessment available online and promoted via television and radio advertisements
- Access to a Nurse Navigator available through toll free number
- Health Talks, educational videos with oncologists addressing key topics related to cancer, are available on the Baptist Health Lexington website
- Membership and participation in the American Commission on Cancer, Kentucky Cancer Consortium and the Kentucky Cancer Link

VII. Communication Plan

The federal regulation mandates that the hospital's community health needs assessment be made widely available to the community. BHL will make the community health needs assessment available by:

- Adding a link to the community health needs assessment on the front page of the BHL website
- Publishing an insert in the Lexington Herald Leader that contains a one page summary of the community health needs assessment
- Making the community health needs assessment available at all BHL service locations and affiliated physician offices

**Baptist Health Lexington Strategic Implementation Plan
2015-2018**

Identified Health Needs	Goals	Action Item(s)
Obesity	<p>Encourage families in Fayette County to increase physical activity across the continuum</p> <p>Promote the availability and access to fresh and affordable produce in food deserts throughout Fayette County</p> <p>Improve worksite wellness in Fayette County</p> <p>Form a partnership with the 16th District Fayette County PTA</p>	<p>Decrease the no exercise rate in Fayette County as measured by the Behavioral Risk Factor Surveillance System (BRFSS) by 2018</p> <p>Increase the number of food venues that provide fresh produce by 2018</p> <p>Identify and increase the number of worksite wellness programs in Fayette County by 2018</p> <p>Work with identified partner schools to develop on-site wellness activities and programs by 2018</p>
Cardiovascular Disease	<p>Educate or provide screening opportunities to at least 75% of the adult population in the primary service area on the importance of cardiovascular health and the prevention of cardiovascular disease</p>	<p>Expansion of the cardiac disease prevention website</p> <p>Use of mass media to promote healthy lifestyle and early recognition of symptoms</p> <ul style="list-style-type: none"> * Heart Health risk assessment available online and promoted via television and radio ads * Health Talks, educational videos with cardiovascular physicians addressing key topics related to heart disease, are available on the Baptist Health Lexington website * Baptist Express Care screenings * Worksite wellness screenings * Other community health fair screenings and events * Social media
