

Purpose Statement

PGY1 residency programs build upon Doctor of Pharmacy (PharmD) education and outcomes to develop pharmacist practitioners with knowledge, skills, and abilities as defined in the educational competency areas, goals, and objectives. Residents who successfully complete PGY1 residency programs will be skilled in diverse patient care, practice management, leadership, and education, and be prepared to provide patient care, seek board certification in pharmacotherapy (i.e., BCPS), and pursue advanced education and training opportunities including postgraduate year two (PGY2) residencies.

The Baptist Health Corbin PGY1 Community-Based Pharmacy Residency Program aims to develop pharmacy leaders that have the necessary skill set to provide quality patient-care services. The intent of the program is to produce proficient pharmacists qualified to practice independently, capable of improving the health of patients within the communities they serve.

This program offers the opportunity to participate in multi-disciplinary patient care in a variety of disease-state management clinics, facilitate patient transitions between care settings and provide direct patient care in ambulatory settings through provider collaboration and board-approved protocols.

Residents will have the opportunity to serve as preceptors to pharmacy students, an educator to other health care providers, and provide community outreach through health fairs and educational programs.

Serving Our Community

As a nonprofit organization, Baptist Health has made a commitment to our community to provide care and services that go far beyond what is expected of a hospital, including charity care, education, community involvement and partnerships. It is a relationship in which the community always wins. Baptist Health admits and serves patients equally, without regard to race, color or national origin, disability, sex or religion.

DIVERSITY • EQUITY • INCLUSION

Baptist Health Corbin's pharmacy is committed to building an inclusive, varied workplace welcoming to people of all backgrounds.

About Baptist Health Corbin

Baptist Health Corbin is a 273-bed, acute care facility providing a wide variety of healthcare services to the residents of Whitley, Knox, Laurel, Bell, Clay, McCreary, and Harlan counties in Kentucky and nearby Jellico, Tennessee in Campbell County. The hospital offers a full continuum of care from inpatient care to rehab services to behavioral health. Additional services include an interventional cardiology program, orthopedics, OB/GYN, general surgery, level 2 nursery and outpatient oncology.

The pharmacy's mission is to provide safe and effective pharmaceutical care to the patients of Baptist Health Corbin.
